

PhD Convent of the Faculty for Chemistry & Pharmacy

Albert-Ludwigs-Universität Freiburg

UNI
FREIBURG

Motivation

We are your elected representatives at the university:
We represent your concerns in faculty & university panels,
support networking amongst PhD students
and are your contact for questions or problems.

Structure

Every PhD student is welcome to join in spontaneously and participate in the discussions.

A board of 3-5 PhD students (elected once a year) then represents the convent in the panels.

We organize the plenary assembly of all PhDs twice a year.

When & where

We meet every 2nd Tuesday of the month on the 4th floor of the inorganic chemistry department.
